# Activating Transit/TermStar

In this document, you will learn how to activate Transit/TermStar after you have installed it. You are at the right place if you have purchased a standalone licence and want to continue using Transit/TermStar.

## What you should know here

- Activation key and Activation Center** To be able to work with Transit/TermStar beyond the 30-day activation period, you must activate Transit/TermStar on your computer. To do this, you require an “activation key”, which ensures that your Transit/TermStar licence can only be used on your computer. You generate the activation key yourself in the “Activation Center”. It is displayed there as the “Activation code”.
- Site Code and Machine ID** “Site Code” and “Machine ID” are two codes which Transit/TermStar displays individually for your computer. You require these codes in the Activation Center in order to generate the activation key for the Transit/TermStar installation on your computer.
- Licence number and activation key** Do not mix up the licence number and activation key:
- ▲ The licence number can be found in the e-mail containing the licence information that you received from STAR. You require the licence number in order to install Transit/TermStar. The licence number defines the product versions, additional functions and optional filters that you have purchased. For time-limited licences, the licence number also includes the period of time in which you can use Transit/TermStar.
  - ▲ You generate the activation key yourself in the Activation Center. You require the activation key to activate Transit/TermStar. The key links the purchased licence to your computer.
- Working initially without activation** After you start up the software for the first time, you can use Transit/TermStar for 30 days without having to activate it. After this period, you must activate Transit/TermStar before you can continue working.

You can generate the activation key in the Activation Center after the 30-day period has expired.

### Deactivating or updating the activation

In the following cases, you have to deactivate Transit/TermStar and release and update the licence in the Activation Center:

- ▲ If you replace your previous computer with a new one
- ▲ If you replace integral hardware components in your computer
- ▲ If you install a new operating system on your computer
- ▲ If you use Transit/TermStar alternately on different computers (e.g. on a desktop computer and a laptop).

For information on how to proceed in these cases, refer to the following documents:

- ⇒ ["Transit/TermStar – Transferring the activation on a new computer"](#) and
- ⇒ ["Transit/TermStar – Modifying hardware/operating system of your computer"](#)

You can find these documents on our website [www.star-group.net](http://www.star-group.net) in the following section: ⇒ [Downloads | Transit & TermStar NXT | Quick Installation Guides](#).

#### **Do not forget to deactivate!**

If you do not deactivate the software in the above-mentioned cases, you cannot activate Transit/TermStar on your new or modified computer and you can therefore no longer use the software.

## What you need here

To activate Transit/TermStar, you require the following:

- ▲ Installed version of Transit/TermStar NXT

Transit/TermStar NXT must be installed on your computer before you can activate it. For information on how to install Transit/TermStar NXT and start it up for the first time, refer to the document ⇒ ["Transit/TermStar – Installing and starting for the first time"](#).

You can find this document on our website [www.star-group.net](http://www.star-group.net) in the following section: ⇒ [Downloads | Transit & TermStar NXT | Quick Installation Guides](#).

- ▲ Login details for the Activation Center

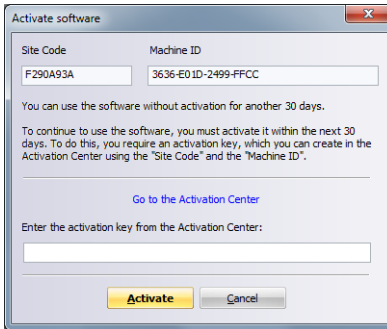

To log in to the Activation Center, you must enter your login details. You can find your login details in the e-mail containing the licence information that you received from STAR.

If you have changed the password, use the new password. If you have forgotten your password, you can have it sent to you by e-mail (⇒ ["Forgotten your password?"](#), page 8).

## Activating the software

**1** Start Transit/TermStar.

If you have not yet activated Transit/TermStar, the system displays the following window after you start it up:

**2** Open the Activation Center.

To do this, click on **Go to the Activation Center** or open the Activation Center in your browser (<http://activate.star-group.net>).

Your browser displays the login page of the Activation Center:

**3** Enter your login details (**Username** and **Password**) for the Activation Center.

- You can find your login details in the e-mail containing the licence information that you received from STAR. If you have changed the password, use the new password (⇒ ["Adding to or updating user data in the Activation Center"](#), page 8).
- If you have forgotten your password, you can have it sent to you by e-mail (⇒ ["Forgotten your password?"](#), page 8).

To save your login details, select **Remember me**. This means that you do not have to log in again the next time you visit the Activation Center.

Click on **Login**.

**4** Click on **Orders** in the page header of the Activation Center.

The Activation Center displays your orders and licences:

**STAR ACTIVATION CENTER**
